

About us

We are a group of international researchers and professionals dedicated to supporting, promoting and giving visibility to underrepresented genders in concentrated solar technologies.

We aim at increasing the participation of underrepresented genders in this sector in a way that includes diverse backgrounds, attitudes and perspectives.

**Women supporting
women+**

**Uniting women for
renewable progress**

**WOMEN+ IN
CONCENTRATED
SOLAR**

Supported by

Get Involved

We have created a database of experts committed to furthering gender equity, as a tool to connect them with decision makers, so they can act as conference leaders, plenary speakers, topic track chairs, session chairs, etc.

Join our expert database!
women.solarpaces.org/members

The Benefits

Join our members to:

- expand your network and gain visibility for your work
- be contacted for speaker and job opportunities
- receive our newsletters to stay informed of our actions and events, plus relevant news from the CS community
- exchange first-hand information and tips with other women in your field

Our Actions

Our actions include:

- Networking events
- Webinars with female speakers
- Representation of women and concentrated solar at renewable energy conferences
- Mentorship programs
- Promote skill and network development for career advancement to expand the concentrated solar workforce
